## Regulatory Disclosures on Capital

### 1. Composition of capital

The tables below summarise the ratios and the composition of regulatory capital of Dah Sing Bank, Limited (the “Bank”). All the information presented below is unaudited.

The Bank complied with all of the externally imposed capital requirements by the Hong Kong Monetary Authority (“HKMA”).

#### 1.1 Capital adequacy ratio

	<b>As at 31 December 2014</b>	As at 31 December 2013
Capital adequacy ratio		
- Common Equity Tier 1	<b>11.4%</b>	10.4%
- Tier 1	<b>11.4%</b>	10.4%
- Total	<b>16.3%</b>	14.5%

The capital adequacy ratio as at 31 December 2014 and 31 December 2013 represents the consolidated ratio of the Bank computed on Basel III basis in accordance with the Banking (Capital) Rules (the “Rules”) and the transitional arrangement set out therein, which became effective on 1 January 2013.

In the calculation of the consolidated capital adequacy ratios, the Bank and those subsidiaries consolidated in the calculation as set out in Note 1.2 below other than Banco Comercial de Macau, S.A. (“BCM”) have adopted the standardised (credit risk) approach for the calculation of the risk-weighted amount for credit risk. The Bank and its subsidiaries have adopted the basic indicator approach for the calculation of the risk-weighted amount for operational risk, and the standardised (market risk) approach for the calculation of the risk-weighted amount for market risk.

For BCM, the risk-weighted amount for credit risk is calculated using the basic approach prescribed by the banking regulator in Macau.

Only the Bank is subject to the minimum capital adequacy requirement under the Hong Kong Banking Ordinance. BCM is subject to Macau banking regulations and Dah Sing Bank (China) Limited (“DSB China”) is subject to China banking regulations.

### 1. Composition of capital (Continued)

#### 1.2 Subsidiaries included under the regulatory scope of consolidation

The following is a full list of the Bank's subsidiaries as at 31 December 2014 and 31 December 2013, and the total amount of assets and equity of each of these subsidiaries as at 31 December 2014.

For financial reporting purposes, all the subsidiaries have been consolidated in the financial disclosure statement. The subsidiaries which are excluded from the regulatory scope of consolidation are specified with explanatory notes provided below.

HK\$'000

Name of subsidiary	Principal activity	Note	As at 31 December 2014	
			Total assets	Total equity
<b>Included in the regulatory scope of consolidation</b>				
Banco Comercial de Macau, S.A.	Banking		17,538,115	2,325,467
Dah Sing Bank (China) Limited	Banking		11,763,015	1,334,325
Dah Sing MTN Financing Limited	Financing		-	-
Dah Sing Properties Limited	Investment holding		-	(14,834)
DSB BCM (1) Limited	Investment holding		-	-
DSB BCM (2) Limited	Investment holding		-	-
OK Finance Limited	Money lending		486,433	(9,928)
Pacific Finance (Hong Kong) Limited	Inactive		470,582	470,067
Vanishing Border Investment Services Limited	Property investment		-	(1,380)
Dah Sing Insurance Brokers Limited	Insurance broking		15,638	12,399
Dah Sing Nominees Limited	Nominee services		100	100
Dah Sing SAR Financing Limited	Financing		-	-
<b>Excluded from the regulatory scope of consolidation</b>				
Dah Sing Computer Systems Limited	Property investment	(b)	-	-
Dah Sing Securities Limited	Securities dealing	(a)	169,681	83,917
DSL I (1) Limited	Inactive	(b)	-	-
Shinning Bloom Investments Limited	Inactive	(b)	-	-
Wise Measure Limited	Property investment	(b)	-	-
Channel Winner Limited	Inactive	(b)	-	(83)

Note:

- (a) Subsidiary falls into the category of "financial sector entities" as defined by the Rules.

In calculating the consolidated capital adequacy ratio as at 31 December 2014 and 31 December 2013 under the Basel III basis, the portion of the aggregate significant investments in Common Equity Tier 1 capital instrument issued by financial sector entities, not subject to regulatory consolidation, that exceeded the 10% concessionary threshold was deducted from capital base. The amount within the 10% concessionary threshold was risk-weighted.

- (b) Subsidiaries are property investment or financing entities which are inactive.

In calculating the consolidated capital adequacy ratio as at 31 December 2014 and 31 December 2013 under the Basel III basis, the Bank risk-weighted the cost of investments in these subsidiaries and did not deduct them from its capital base on the basis that the total cost of investment does not exceed 15% of the Bank's capital base as at the immediately preceding calendar quarter-end date.

Channel Winner Limited has become a subsidiary of the Bank with effect from 13 November 2014.

Notes to the template

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

HK\$'000

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Other intangible assets (net of associated deferred tax liability)</b>	61,844	61,844
9	<p><u>Explanation</u></p> <p>As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights (MSRs) may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.</p>		
	<b>Deferred tax assets net of deferred tax liabilities</b>	82,558	1,076
10	<p><u>Explanation</u></p> <p>As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future profitability of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III.</p> <p>The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III.</p>

### 1. Composition of capital (Continued)

#### 1.3 Components of regulatory capital elements (Continued)

##### 1.3.1 Position as at 31 December 2014 under Basel III basis with transitional arrangement (Continued)

Notes to the template (Continued)

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Insignificant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
18	<p><u>Explanation</u></p> <p>For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.</p> <p>Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>		
	<b>Significant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
19	<p><u>Explanation</u></p> <p>For the purpose of determining the total amount of significant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.</p> <p>Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>

### 1. Composition of capital (Continued)

#### 1.3 Components of regulatory capital elements (Continued)

##### 1.3.1 Position as at 31 December 2014 under Basel III basis with transitional arrangement (Continued)

Notes to the template (Continued)

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Insignificant capital investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
39	<p><u>Explanation</u></p> <p>The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>		
	<b>Insignificant capital investments in Tier 2 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation</b>	-	-
54	<p><u>Explanation</u></p> <p>The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>		

Remarks:

The amount of the 10% / 15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (Capital) Rules.

Abbreviation:

CET1: Common Equity Tier 1

AT1: Additional Tier 1

## Regulatory Disclosures on Capital

### 1. Composition of capital (Continued)

#### 1.3 Components of regulatory capital elements (Continued)

##### 1.3.3 Position as at 31 December 2013 under Basel III basis with transitional arrangement (Continued)

Notes to the template

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

HK\$'000

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Other intangible assets (net of associated deferred tax liability)</b>	66,242	66,242
9	<p><u>Explanation</u></p> <p>As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights (MSRs) may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.</p>		
	<b>Deferred tax assets net of deferred tax liabilities</b>	27,520	4,065
10	<p><u>Explanation</u></p> <p>As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future profitability of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III.</p> <p>The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III.</p>

### 1. Composition of capital (Continued)

#### 1.3 Components of regulatory capital elements (Continued)

##### 1.3.3 Position as at 31 December 2013 under Basel III basis with transitional arrangement (Continued)

Notes to the template (Continued)

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Insignificant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
18	<p><u>Explanation</u></p> <p>For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.</p> <p>Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>		
	<b>Significant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	7,121	7,121
19	<p><u>Explanation</u></p> <p>For the purpose of determining the total amount of significant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.</p> <p>Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>

## Regulatory Disclosures on Capital

### 1. Composition of capital (Continued)

#### 1.3 Components of regulatory capital elements (Continued)

##### 1.3.3 Position as at 31 December 2013 under Basel III basis with transitional arrangement (Continued)

Notes to the template (Continued)

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Insignificant capital investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
39	<p><u>Explanation</u></p> <p>The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>		
	<b>Insignificant capital investments in Tier 2 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation</b>	-	-
54	<p><u>Explanation</u></p> <p>The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.</p>		

Remarks:

The amount of the 10% / 15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (Capital) Rules.

Abbreviation:

CET1: Common Equity Tier 1

AT1: Additional Tier 1
